Troop Site Links

A video walkthrough is also available.

Your troop site links make it easy to sell cookies online—whether that's in addition to your regular cookie booths or instead of them. When you set up your troop site, you may have two links available (depending on your council's settings). These links help your troop reach new customers in your community and beyond.

Setting Up Your Troop Site

- Log in to Digital Cookie.
- Select the Troop role
- Go to the Our Troop Cookie Site section.
- Click SET UP YOUR SITE.
- Or go to the Site Setup page from the Menu

Step 1: Photo

- Tap the **camera** icon to upload a photo from your device or use a picture from the gallery.
- Girl Scouts can upload a photo and video.

Step 2: My Cookie Story

- Tap the **Pencil** icon to write your story.
- Write the story
- Tap Save

Step 3: Goal Setting: Set My Sales Target

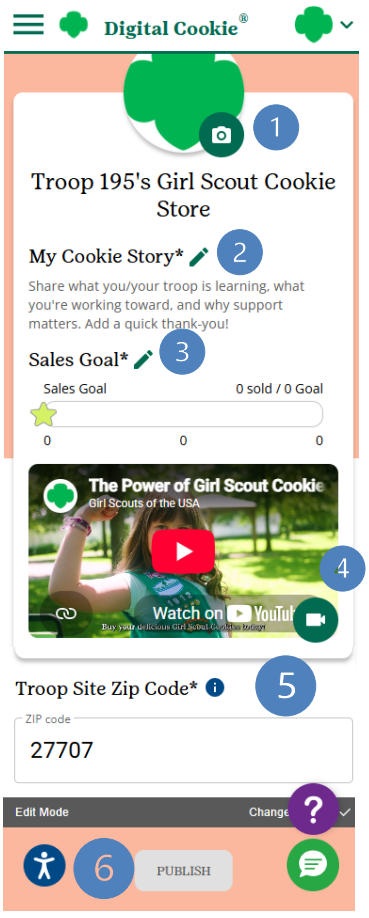

- Tap the **Pencil** icon to enter the number of cookie packages you plan to sell.
- The calculator will display approximately how much money the troop will earn from her efforts.
- Tap Save

Step 4: Video

- Tap the **video camera** icon to upload a video from your device or use the Power of Girl Scout Cookies video.
- Girl Scouts can upload a photo and video.
- Videos can be uploaded in either landscape or portrait format.
- Video should be less than 10MB.

Step 5: Troop Zip Code

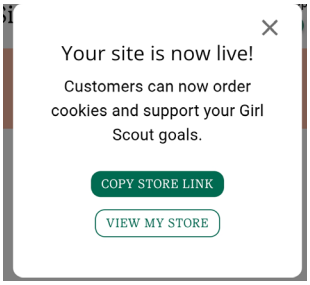

- Confirm your troop's zip code (or enter one).
- The zip code usually comes from your troop's meeting place in the membership system.

Step 6: Publish and View Your Cookie Site

Once you are happy with the way the cookie site looks. Tap **Publish.**

- If your council's digital cookie sales has started, you will receive a pop up with the link to your cookie site.

After Publishing

Once your site is live you can:

1. Screenshot or print your site's QR code for easy sharing. Customers who scan the QR code will be directed to your troop's Ship Only site, where shipping is the only available delivery option..
2. Copy and share your site link with customers. Use the Share button to quickly post your site through your preferred social media, email, or text messaging apps. There are two link options:
    - **Troop Site Link**: Directs customers to the troop's cookie site, where all available delivery options can be selected.
    - **Ship Only Link**: Directs customers to the troop's Ship Only site, where shipping is the only available delivery option.

You'll also have access to the mobile app. For tips on using it, check out the Mobile App – Troop Tip Sheet.
