### Summer Science Sails d b j c s a

#### Great Lakes Discovery (3 hours)

Are you curious what lies beneath the surface of the Great Lakes? Throughout this adventure you'll act as a scientist by collecting fish, plankton, and organisms from the bottom of the lake using scientific equipment. You'll also get to try your hand at some on board water chemistry and learn how scientists monitor the health of the Great Lakes. During your sail you'll help raise the sails and even try your hand at steering the ship!

\$40/adult (ages 11+)  
\$30/child(ages 0-10)  
Children under 2 free

Maximum number of participants vary by program.

Programs are public offerings and not guaranteed to be Girl Scout exclusive. Sail programs are not complete badge earning experiences, but may be applied to various STEM badges.

#### Fishes of Lake Michigan (2 hours):

Have you ever wondered what fish species live in the Great Lakes? Are you curious how researchers collect and identify the fish that live here? During this sail you'll help deploy scientific equipment to collect fish from the bay and play the role of a citizen scientist by identifying and documenting the fish that are caught.

\$35/adult (ages 11+)  
\$25/child(ages 0-10)  
Children under 2 free

#### Steady the Ship (2 hours):

Play the part of a schooner sailor as you explore the history and science of sailing on the Great Lakes. Not only will you have the opportunity to hoist the sails and steer the ship, but you'll also learn how sails work, what keeps the ship afloat, and why the ship moves the way it does.

\$35/adult (ages 11+)  
\$25/child(ages 0-10)  
Children under 2 free
